

Therapy Connections

Phonological awareness is the ability to recognize and work with sounds in spoken language. Phonological awareness is the foundation for learning to read. Some children pick it up naturally but others need to be taught in a structured and supportive environment.

Be Aware of Phonological Awareness

Therapy Connections will provide a wide range of therapeutic services using state of the art techniques that allow children with disabilities to achieve their highest potential

Services are provided to children of all ages and various diagnoses that include Cerebral Palsy, Sensory Processing Disorder, Autism, Dyspraxia, Down syndrome and Language and Development Delays
